Nordic EOSC

Friday, 14 June 2019 09:45 (45 minutes)

The talk describes the EOSC-Nordic project, coordinated by NeIC, which will have its official start-up in Sep, 2019. The 6 mill EUR EC-granted EOSC-Nordic project aims to facilitate the coordination of EOSC relevant initiatives within the Nordic and Baltic countries and exploit synergies to achieve greater harmonisation at policy and service provisioning across these countries, in compliance with EOSC agreed standards and practices. The project brings together a strong consortium of 24 complementary partners including e-Infrastructure providers, research performing organisations and expert networks, with national mandates and experience with regards to the provision of research data services, and a unique capacity to realise the outcomes of the EOSC design as outlined by the EOSC Implementation Roadmap. The presentation will provide insight in partnerships, activities and focus areas of EOSC-Nordic in order to invite for even further collaboration and integration in on-going activities.

Presenter: KRØL ANDERSEN, Lene (NeIC)
