Distributed computing at P.J. Safarik University

Friday, 3 June 2016 11:40 (20 minutes)

The aim of the talk is to present a brief view on the history of the distributed computing at University and partially in Slovakia, and application of the distributed computing approach that enabled us to deliver interesting scientific results. At the end I will present thoughts about a need to increase intelligence of computational systems.

Presenter: Dr ČERNÁK, Jozef (UPJS)

Session Classification: Plenary Session 3
